PERPETUAL LIME KILN.

THIS KILN will burn four hundred bushels of Lime-Stone (which, if good stone, is equal to one thousand bushels of slacked lime) in twenty-four hours, with four cords of wood, and is perpetual in its operation, the lime being drawn once in three to six hours, from the base, and

being drawn once in three to six hours, from the hase, and replenished at the top of the copola. This is but the or-dinary every day capacity of the Kiin, as has been aboud-antly demonstrated by those already in operation. It also makes much better time than that burned in the or-

dinary way, all the stone being perfectly burned.

Any number of reliable certificates to the capacity of
the Kiln, and any other information in reference to it,

will be furnished, on application by letter or otherwise, to the subscriber, who is agent for the sale of rights and put-

ting up Kilns in the State of Tennessee.

No. 20, Elm st., Cincinnati, Chie. Post Office box 2340

Oskum, deliverable in New York or New Orleans, may 16-6m

THE undersigned are prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT KLAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Con panies, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmoshere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will enproved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shineles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet; it being far

cheaper than any Roof of the old style, and we are sure it It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any ob-ject to which it is applied. Tin Roofs can be painted over (and warranted not to lesk) at two dollars and fifty cents per hundred square feet, which is cheaper and much bet-teir than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to fir—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light substance will burn out without igniting.

Insurance Offices at Cincinnati, and other places

where Childs & Co.'s Cement has been used, insure Build-ings with Roofs covered with this Coment, at the same rates as for those covered with Iron, Copper or Tin. The Cement will be furnished to those at a distance with directions for using.

Orders sent to the undersigned, through the Postoffice, will be promptly attended to J. T. NATHURST. No. 24, Spruce Street.

TESTIMONIALS AND REPERENCES.

OFFICE ECCEPTS STATE INSURANCE COMPANY, CINCINNATI, Dec. 16, 1856
To ALL WHOM IT MAY CONCERN: This is to certify that have examined specimens and Roofs of W. E. Childs & Co.'s Elastic Fire and Water-Proof Cement Roofing," sad be Here it to be emicently superior to any other kind of Roof ing in use. I was an eye witness of a severe trial of one of these Boofs from a large volume of flame from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all ex-pectation, and saved the building, T. M. HASKELL, President Buckeye State Insurance Co.

From J. B. Bennett, General Agent of Ætna Ins. Co. for the Southern and Western States. CINCINNATI, Jan. 7, 1857. Having made considerable inquiry as to the merits of the Patent Elastic Cement Roofing," introduced into this city which & Co. I find it to be highly recommended in this by Childs & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over the tar composition Booling is decided and weely admitted; and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use tin, but will try the virtues of the "Patent Elastic Roofing" as a substitute. Dysentery, Relax and Worms. POST OFFICE, HARTLAND, Lay, Co., MICH., Nov. 16, 1855. DR. AXER: Your Pills are the perfection of Medicine. They have done my wife mere good than I can tell you. She had been lick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Phils, while others around us paid from five to twenty dollars doctors' bills, and lost much time, wi hout being cured entirely even then. Such a medicine as yours, which is actually good and honest will be prized here. GEO, J. GRIPPIN,

Reason why this Machine is Universally Preferred over All Others. 1 Because it is the only Sewing Machine in

the world ever invented, so constructed as to fully meet the demands of families for general 2 It is very simple and is nover liable to get

ut of order. 3 It makes a seam which will not rip, though 4 It is not a Shuttle Machine. 5 It sews with two needles, making any

ength stitch desired. 6 It sews from two ordinary spools, and thus all trouble at winding thread is avoided; while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work. 7 The same Machine runs silk or linen hread, and common spool cotton, with equal tacility.

8 This Machine will sew in the sleeves of a coat with the same ease and facility that it sews a straight seam. 9 This Machine can be run to make one thousand five hundred stitches per minute.

10 The seams are as elastic as the most clasall traces of Gonorihon, both in its mild and aggravated forms, Gleets, Strictures, Irritation of the Aladder, non-rebreak in washing, ironing or otherwise. 11 The stiches made by this machine are nore beautiful than any other made either by hand or machine. The price of these Machines at office in New

York, range from \$75 to \$150: an additional charge of \$10 only is made on each machine defray expenses of importation, &c., to Nash-R. H. BROCKWAY, Sec'y., Nashville Sewing Machine Company. Prices of these Machines range from \$85 to \$150. [March 25-tf.

CHOICE FARM LANDS FOR SALE. THE ILLINOIS CENTRAL R. R. COMPANY IS NOW PREPARED TO SELL ABOUT

1,500,000 Acres of Boots & Shoes, Hats & Straw Goods, IN TRACTS OF 40 ACRES & UPWARDS, ON LONG CREDITS AND AT LOW RATES OF

INTEREST.

THESE lands were granted by the Government to aid in the construction of this Road, and are among the richest and most fertile in the world. They extend from North-east and North-west, through the middle of the State, to the extreme South, and include every variety of climate and productions found between those parallels of latitude. The Northern portion is chiefly prairie, interspersed with fine groves, and in the middle and fouthern sections timber predominates, alternating with heantiful ons timber predominates, alternating with beautiful prairies and openings
The climate is more healthy, mild and equable than any other part of the country—the air is pure and bracing, while living streams and springs of excellent water abound. Bituminous Coal is extensively mined, and supplies a cheap and desirable fuel, being furnished at many points at \$2 to \$4 per ton—and wood can be had at the same rate per cord.

Building Stone of excellent quality also abounds, which can be procured for little more than the expense of transportation.

The great fertility of these lands, which are a black rich mould from two to five feet deep, and gently rollin.,—their contiguity to this E ad, by which every facility is furnished for travel and transportation, to the principal markets North, South, East, West, and the economy with which they can be cultivated, render them the most valuable investment that can be found; and present the most favorable opportunity, for persons of industrious habits and small means, to sequire a comfortable industrious habits and small

The Title is perfect—and when the final payments are made, Deeds are executed by the Trustees appointed by the State, and in whom the title is vested, to the purchasers,

which convey to them absolute titles in Fee Simple, free and clear of every incumberance, lien or mortgage.

The prices are from \$6 to \$30; interest only 8 per cent.

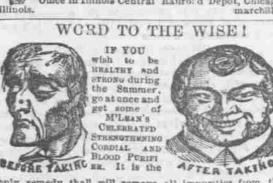

Twenty per cent will be deducted from the credit price for Cash. Those who purchase on long credit, give notes payable in 2.8, 4, 5 and 6 years after date, and are required to improve one-tenth annually for five years, so as to have one-half the land under cultivation, at the end of the time. Competent Surveyors will accompany those who wish to

examine these Lands, free of charge, and aid them in naking selections.

The lands remaining unsold are as rich and valuable as those which have been disposed of.
Sectional Maps will be sent to any one who will enclose fifty cents in Postage Stamps, and Books or Pamphiets containing numerous instances of successful farming, signed by respectable and well-known farmers living in the respectance and well-known lattners living in the neighborhood of the Railroad Lands, throughout the State—also the cost of funcing, price of cattle, expense of harvesting, threshing, etc.,—or any other information—will be cheerfully given on application, either personally or by letter, in English, French, or German, addressed to

In all Nervous lineumatic, and Neuralgic Affections, it has, in numerous instances, proved highly beneficial, and in others effect ecided cure. ecided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated
Holland Professor, Boerhave. Because of its great success
in most of the European States, its introduction into the
United States was intended more especially for those of our
fatherland scattered here and there over the face of this fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of the, thrilling and quickening every nerve, raisthe seat of the, inriung and quectoring every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Wheever expects to find this a beverage will be disappointed; but to the sick, the weak and low spirited, it will prove a grateful aromatic cerdial, possessed of singular remedial properties. CAUTION.

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing.
